PROFESSIONAL SUMMARY

Results-driven **Full-Stack Software Engineer** with hands-on expertise in full-lifecycle web development, mobile application engineering, and **Generative AI (LLM)** systems. Proficient in **React.js, React Native, Python, Node.js**, and **LangChain**, engineering responsive user interfaces, and building scalable RESTful architectures. Strong foundation in Data Structures, Algorithms, and Agile software development.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, Java, HTML5, CSS3
- **Computer Science:** Data Structures and Algorithms, Object-Oriented Programming, Algorithm Design, Problem Solving, Complexity Analysis, Operating Systems, OOP, Computer Networks
- **Frontend & Mobile:** React.js, React Native, Expo Go, Tailwind CSS, VS Code
- **Backend & Cloud:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases & Vector Stores:** MongoDB, ChromaDB (Vector Database), Database Management Systems
- **Software Engineering:** Unit Testing, Git, Agile, SDLC
- **GenAI & Developer Tools:** LangChain, Groq API (Llama 3.1), RAG, Streamlit, Git, GitHub, Docker, Postman

WORK EXPERIENCE

Technical Hub *May 2025 – June 2025*
Software Engineer Intern – React Native Development *Surampalem, India*

- Engineered 2 cross-platform mobile apps using **React Native** and **Expo Go**, maintaining a **90%+ UI responsiveness score**.
- Integrated 15+ secure **RESTful APIs** , reducing data synchronization latency by **25%**.

Technical Hub *June 2024 – July 2024*
Full-Stack Web Developer Intern *Surampalem, India*

- Developed and deployed 3+ responsive web apps using **React.js** and JavaScript (ES6+), boosting interaction speeds by **40%**.
- Slashed initial page load times by **30%** through code splitting, lazy loading, and architecting 25+ reusable React components.
- Collaborated in Agile sprint retrospectives, conducting peer code reviews, automated unit testing, and cross-browser debugging.

PROJECTS

GenAI Cold Email Generator — Python, LangChain, Groq LLM, ChromaDB, Streamlit *Source Code*

- Architected an automated B2B lead generation pipeline using **LangChain** and **Groq LLMs (Llama 3.1)** to scrape career page URLs and extract structural job requirements into validated JSON schemas.
- Integrated a **Vector Database (ChromaDB)** to query semantic embeddings via cosine similarity, dynamically retrieving and injecting relevant portfolio links into tailored sales outreach emails.
- Deployed an interactive user interface using **Streamlit**, slashing manual cold outreach drafting time by **85%**.

Doubtify Mobile Learning App — React Native, Express.js, Node.js, MongoDB *Source Code*

- Built a cross-platform mobile quiz application featuring multifactor **OTP authentication** and secure **JWT tokens**.
- Integrated real-time automated scoring engines and an **AI conversational assistant API**, accelerating doubt resolution by **45%**.

Fit Track Pro Analytics App — React.js, Express.js, MongoDB, Node.js *Live Application*

- Developed a full-stack health dashboard, optimizing **MongoDB** indexing and aggregation to decrease query latency by **35%**.
- Built visual workout trend analytics with dynamic charts and automated push notifications, increasing user retention by **25%**.

EDUCATION

- **B.Tech in Information Technology** — Aditya Engineering College *2022 – 2026* | **CGPA: 8.62 / 10.0**
- **Intermediate (MPC)** — Tirumala Junior College, Andhra Pradesh *2020 – 2022* | **Percentage: 92.8%**

CERTIFICATIONS

- **Oracle Certified Foundations Associate, Database** — Oracle [Link]
- **Full Stack Development with React Native** — Technical Hub [Link]
- **Summer Internship on React Native Engineering** — Technical Hub [Link]
- **Cisco Certified: JavaScript Essentials 1 & 2** — Cisco Networking Academy [Link]
- **Cisco Certified: Python Essentials 1 & 2** — Cisco Networking Academy [Link]
